16
LE GROS ROMAIN GRANDJEAN.
NEUVIÈME ALPHABET.

MON nom par la victoire est si bien affermi,
Qu'on me croit dans la paix un lion endormi :
Mon réveil incertain, du monde fait l'étude,
Mon repos en tous lieux jette l'inquiétude,
Et tandis qu'en ma Cour les aimables loisirs,
Ménagent l'heureux choix des jeux & des plaisirs,
Pour envoyer l'effroi sous l'un & l'autre pole,
Je n'ai qu'à faire un pas & hauffer la parole.
CORNEILLE.

LE GROS ROMAIN GRANDJEAN.
NEUVIÈME ALPHABET.

L'ARGENT, l'argent, dit-on, sans lui tout est stérile.
La vertu sans l'argent n'est qu'un meuble inutile.
L'argent en honnête homme érige un scélérat.
L'argent seul au Palais peut faire un Magistrat.
Qu'importe qu'en tous lieux on me traite d'infame,
Dit ce fourbe sans foi, sans honneur & sans ame ;
Dans mon coffre tout plein de rares qualités,
J'ai cent mille vertus en Louis bien comptés.
DESPRÉAUX.

40
DOUBLE GROS CANON. QUATORZIÈME ALPHABET.

SA voix redoutable
Trouble les enfers.
Un bruit formidable
Gronde dans les airs.

SORTEZ de vos retraites,
Accourez, Dieux des bois ;
Au son de nos musettes
Accordez vos hautbois.

Gravé par M. GRANDJEAN.

LA RÉFORME

DE LA

TYPOGRAPHIE ROYALE

SOUS LOUIS XIV

LE GRANDJEAN

L'Académie, en rendant compte officiellement des études de ses mécaniciens relatives à la gravure des caractères, avait annoncé que le résultat de leurs travaux pourrait être apprécié dans les nouveaux types utilisés pour l'impression des *Médailles des principaux événements du règne de Louis le Grand avec des explications historiques par l'Académie des médailles & inscriptions*. Ce livre tout à la gloire de Sa Majesté, était le couronnement d'une série de luxueuses publications connues sous le nom de *Cabinet du Roi*²³. Rien ne devait être épargné pour un tel ouvrage. Plusieurs médailles furent spécialement gravées & frappées par Varin & les meilleurs artistes de la Monnaie. Coypel, Sébastien Le Clerc, Ede-

ves sur cuivre par Louis Simonneau & plus tard par Rochefort. Ce travail prit un temps considérable; les premiers cuivres portent la date de 1695, les derniers ont été achevés en 1718. De ces cuivres gravés pour l'«Assemblée des arts» il ne fut tiré que quelques exemplaires au cours du XVIII^e siècle, mais les spécialistes en prirent connaissance & Simon-Pierre Fournier, dans son premier volume du *Manuel typographique* paru en 1764, se livrait à une brillante critique de ces gravures :

«En 1692, l'Académie des sciences entreprit la description des arts, dont la typographie devait être le premier, comme étant celui «qui conserve tous les autres». La description de cet art fut en effet commencée dès 1693. Malheureusement il n'y avait
